CYBER TRAINING MEETS REAL-WORLD CHALLENGES

BlackPerl's Content is always kept updated based on industry trend and attack landscape to inject education at early stage

ABOUT OUR COMPANY

A BRIEF STORY ABOUT THE COMPANY

BlackPerl is committed to providing industry-leading managed detection & response, security operations and engineering service with augmented cybersecurity training programs. We lead our projects with a mindset that we train our clients too at the stage of delivery.

We believe in equal learning opportunities around the world. Our qualified instructors design courses that are easily accessible to everyone. You can download free resources during each course for better learning. We are dedicated to bring more courses so you can have a larger variety of courses to choose from.

CONTINUOUS COMPLIANCE SERVICES

SOC/MDR as a Service

24*7 Monitoring, Alerting, Reporting, Log retention, Compliance, Contextualised Threat Intel as your extended team or MSSP. Custom built, complete control and visibility.

SOC CoE

SOC CoE assessment is designed to provide a holistic view of the SOC's performance, identify gaps, and recommend actionable improvements.

Vulnerability & Patch Management

Streamline security with end-to-end vulnerability assessments and swift patch deployment to minimize risks and maintain compliance.

Governance & Compliance

Our experts assist with compliances - like RBI, SEBI, CERT-In, Privacy Act, and more. Count on us for seamless adherence to evolving regulations.

PERIODIC SERVICES

Vulnerability Assessment & Penetration Testing (VAPT)

Identify and exploit vulnerabilities across your network, applications, and systems with our comprehensive VAPT services, enhancing your security posture through rigorous testing.

Red Teaming

Simulate sophisticated cyberattacks against your organization to test the resilience of your security protocols and response strategies, with our expert Red Teaming exercises.

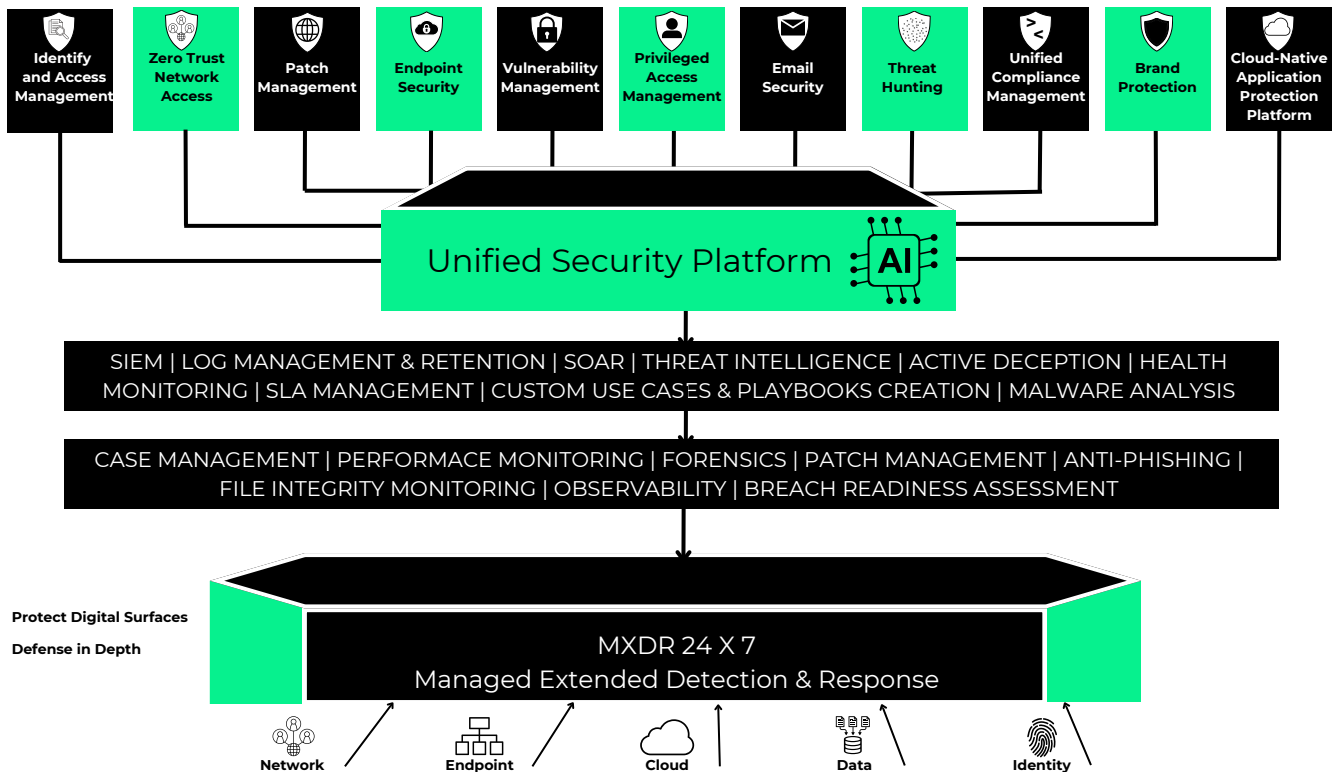

Digital Forensics and Incident Response (DFIR)

Incident response expertise on standby to get you back to business. Rapid response SLAs that mitigate the overall impact of a breach.

Breach Readiness Assessment

Evaluate your organization's preparedness for cyber incidents with our Breach Readiness Assessment, identifying gaps in your defense mechanisms and providing actionable recommendations.

WHY CHOOSE US?

SHORT STORY ABOUT BENEFITS

1. Get Access of 100% updated content based on Industry demand.
2. Our delivery method is not one-way. We will make sure you do things, and we are with you in this whole process.
3. You will talk and interact Live with world-class Cloud Security expertise.
4. We will track your progress and support you to upskill.
5. Placement and Internship Opportunity.

 <p>1</p> <p>Continuous Update</p> <p>BlackPerl's Content is always kept updated based on industry trend and attack landscape to inject education early</p>	 <p>2</p> <p>2 Way Delivery Model</p> <p>You as student will interact with our instructor through teach back session to ensure 100% effectiveness</p>	 <p>3</p> <p>Expert Staffing</p> <p>BlackPerl sources top-tier cybersecurity talent globally to handle complex technologies effectively</p>	 <p>4</p> <p>Learn by Doing</p> <p>You will perform Hands-on our real engagement and thus you will learn by doing things and by conventional way of learning</p>	 <p>5</p> <p>Revolutionary Pricing Model</p> <p>BlackPerl's transparent pricing model is outcome-based, allowing clients to clearly justify their security expenditures and achieve superior efficiency.</p>

GLOBAL CYBERSECURITY THREAT LANDSCAPE 2025

A BRIEF STORY

- Cybercrime damage is projected to exceed \$10.5 trillion by 2025. Attacks are increasingly powered by AI and linked to nation-states.
- Most organizations (72%) now recognize cyber risk as a critical business risk. The threat landscape continues to evolve rapidly.

MAJOR GLOBAL THREAT ACTORS

67%

Nation-State APTs

Advanced persistent threats linked to governments

4

Key State Actors

Russia, China, Iran, and North Korea

35%

Targeted Attacks

Percentage increase in strategic cyber operations

PROMINENT THREATS IN THE GCC REGION

Energy Sector Targeting

Ransomware attacks on oil and gas infrastructure rising rapidly.

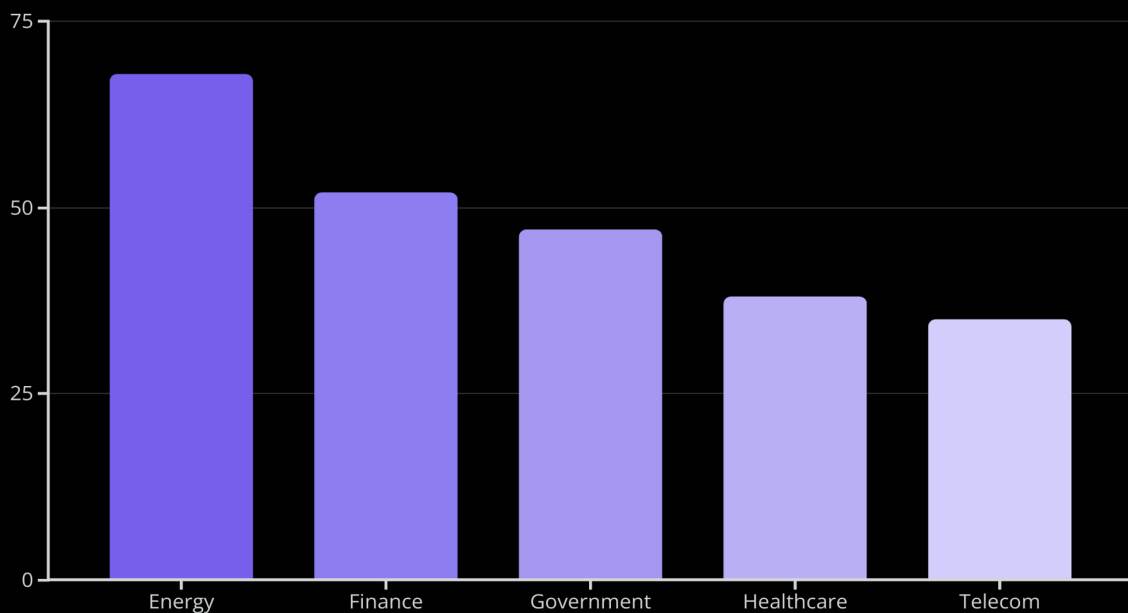

Spear Phishing Campaigns

Sophisticated social engineering targeting key personnel.

Geopolitical Motivations

Regional tensions driving state-sponsored cyber operations.

WORLD JOB MARKET & CYBER LANDSCAPE

A BRIEF STORY

- As of May 2023 40,000, new open job opportunity in India.
- 30% of existing vacancies couldn't be filled.
- At worldwide, 3.5 Million Cyber Jobs will open by 2025.
- Base pay range 4L – 8L / yr. INR

 Open Jobs

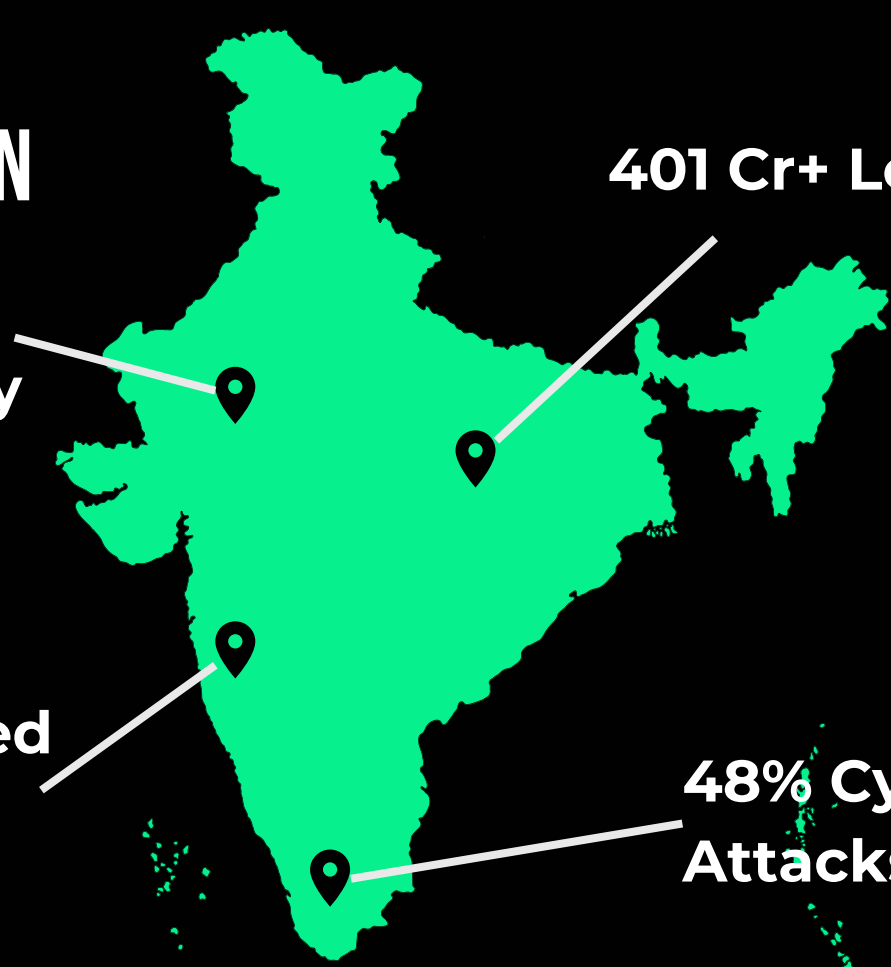

3.5 MILLION

**4400+
Attacks/day**

**2nd Ranked
in World**

401 Cr+ Less

**48% Cyber
Attacks**
